

TEMPERATURE CONTROLLED RAIL SHIPMENTS

Experience worry-free shipping with superior product protection and premium boxcar performance.

WHAT MAKES OUR INSULATED AND REFRIGERATED BOXCARS UNIQUE?

Our designs have reduced the thermal bridge—without cracks or gaps.

Insulation: Polyurethane pour foam is applied in one single process to ensure all cavities are filled.

The interior is finished with impact-resistant fiberglass

Our door is insulated with the same polyurethane foam

Features multi-purpose lading anchors for load securement

Includes GPS tracking, temperature monitoring and door sensors

Available in extra large capacity fuel tank.

R-VALUE COMPARISON OF COLD SUPPLY CHAIN
